

Authentic Environments

*Artisans & Relief Sculptors
of Themed Concepts*

Let AE Build a World for You...

We use the latest in advanced concrete fabrication techniques to mimic natural forms. Fabricated forms provide more versatile solutions to complex landscape challenges..

These techniques, originally perfected by the theme park and hotel industries, blend the best of both worlds.

Authentic Environments is ready to go to work for you.

- *Complete Environments*
- *Rockscapes*
- *Waterfalls*
- *Pools and Slides*
- *Permanent Organic Effects*
- *Historical Reproductions*

We Create Complete Environments to Order ...

*We are specialists at
integrating design themes
to match with architectural
elements and practical physical
considerations.*

We make it all work together!

Custom Applications

*Whether you might need
something as simple as a
stairway, or maybe more
complex elements like
water features, walls and
archways, buildings or
even complete worlds,
we do it for you!*

*Naturalistic Environments
can involve many
elements...*

Rockscapes

We create a variety of simulated rockwork to effectively forge a relationship between plantings and various elements of the surrounding landscape in a beautifully natural way! All without the expense and difficulties involved with real rocks.

Permanent Organics

We can simulate other design elements in your environment such as wood, metal accents, even some foliage, just as permanently as the rockwork and walls.

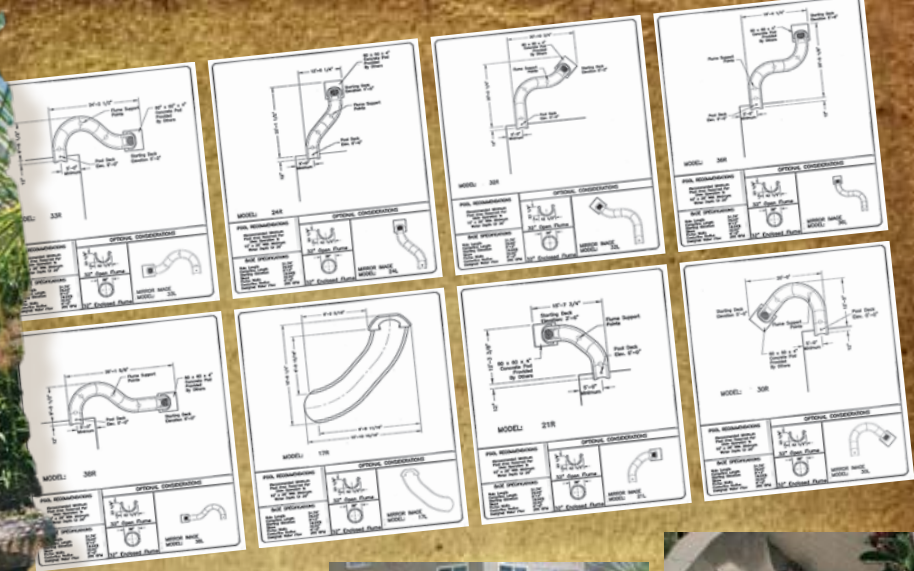

Historical Reproductions

We can accurately research and reproduce historical elements that will create unique and fascinating accents, or even entire themes for your environment.

Pool Slides

We have a huge library of designs to help you add one of the most gratifying additions you can make to your pool.

Swimming Pool Surrounds

We'll help you create your own beautiful and unique totally integrated pool environment that will give you pleasure for years to come as well as add great value to your grounds! We have many different themes and approaches, let us work with you.

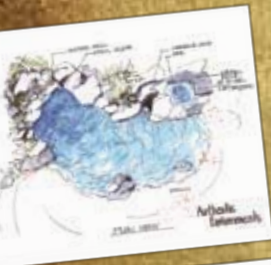

Waterfalls

We can give you your own Niagara, a hidden grotto or just maybe a small sparkling fountain accent, just ask!

*Scale Models
and Prototyping...*

Designing and Development

We leave no details out!

We work with you to make sure every detail is correct, whether it's a single architectural accent or an entire world.

We use all the tools of the designer... detailed plans, color illustrations, 3-D scale models and samples of actual materials to perfect your project before construction starts.

*Comprehensive Design
Visualizations...*

Food for thought...

"There is hardly anything in the world today that somenbody cannot make a little worse and sell just a little bit cheaper, and the people who buy on price alone are this person's lawful prey."

Our personal policy...

We have a personal commitment to provide our clients with the very best solutions at the most reasonable price!

Some of the following excerpts testify to our success...

...being a pool builder in the Los Alamitos area, of custom high end projects, I was looking to build the ultimate backyard at my own house. The selection of each portion of the project was crucial to the end result. I certainly feel that the rockwork you performed was outstanding and makes the yard truly have a realistic look. Your attention to detail and your willingness to work with me through the entire project was very professional. I would certainly recommend you...

Los Alamitos, CA

...the feeling of being in the tropics, with waterfalls, caves, tropical plant life, slides appearing from the jungle, and last but not least the sound of running water to soothe a difficult day. I open my home and paradise in my backyard for anyone to come and see what Authentic Environments did for my family. We love our home and thank Richard and his crew for all their hard work.

Costa Mesa, CA.

..thank you for the outstanding job you and your staff did in constructing the temple, and faux painting the poolside block walls, and you for personally creating the awesome handcrafted wall hanging, all of which magically helped transform the backyard pool area into a tropical paradise concept with a very unique twist. Please feel free to refer any prospective clients to me and I'll be happy to speak with them.

Huntington Beach, CA.
