

Sandia

INDUSTRIAL
VACUUMS

Easy twist
access port.
Quick
removal,
won't freeze
in place.

Trigger sprayer
holders for spotting chemicals
and agitation brushes.

Molded-in air deflector
reduces turbulence
within the recovery tank.

Automatic vacuum
restrictor.

Top-mounted controls and connections,
recessed for protection.

Angled vacuumed cavity
removes all liquids.

Double-sided indestructible
solution access port.

Top mounted vents
dissipates the hottest air.

Molded lifting handles.

Semi-pneumatic wheels
for smooth, quiet operation.

Rotary latch.

Patent Pending Induction Motor Cooling.

Sandia's innovative air intakes
use the vacuum's own cooling fan to
pull cool outside air over the vacuum motors.
This innovation reduces motor temperatures
by up to 18 percent.
The heated air pressurizes the motor cavity
forcing the hot air to be expelled
through the six slotted vents.

Add an internal heater to
any Sniper Extractor.
Heats solution to
198 degrees.
Power may be split
between two cords.

Sandia's Sniper brings superior performance capabilities with styling that only Sandia offers.
